GERMAN DEFENSES CRUSHED BULGARS ACCEPT ALLY TERMS

FROM THE NORTH SEA TO THE MEUSE THE ARMIES OF THE ALLIES ARE PRESSING FORWARD SUCCESSFULLY THROUGH THE MAIN GERMAN DEFENSE SYSTEMS. GERMAN FIGHTING DESPERATELY ARE UNABLE TO CHECK THE PROGRESS OF THE ALLIES.

**SUBURBS OF CAMBRAI NOW OCCUPIED
BY THE ADVANCE OF THE ALLIED ARMIES
LILLE AND U-BOAT BASES ARE MENACED**

Advance North of St. Quentin is Maintained by the French. Hill Positions Around Metz and Laon Dominated Now by the Allied Forces. More Than 9,000 More Prisoners Taken.

(By The War Editor of The Associated Press)

On the western front from the North Sea to the Meuse the allied armies are pressing vigorously and successfully through the main German defense.

The suburbs of Cambrai have been entered and the allies are closing in on Lille, St. Quentin and Laon, while the French and American drive northward west of the Meuse against the German communication lines continues.

Germany's hard pressed armies are fighting desperately to stay the allied onslaughts, but the French, British, Americans and Belgians are fighting their way steadily into the German defense system, the overthrow of which probably will result in a German retirement to the French border, if not to the Rhine.

The heaviest fighting of the war is now in progress and the allies on all sectors are moving ahead.

In Flanders the Germans have been driven from the hills around Ypres and from the formidable Messines-Wytschaete positions. Attempts to defend the approach to the Lys failed before the attacks of the Belgian and British troops who are driving a wedge between the Belgian coast and the great fortress of Lille, threatening both Lille and the submarine bases of Ostend and Zeebrugge.

More than 9,000 Germans have been captured in the Flanders operations. From south of the Scarpe river to the Oise north of Laon the British, French and Americans are smashing the German defenses with mighty hammer blows.

The outskirts of Cambrai have been entered on the north and west and the fall of this important sector seems to be a matter of hours.

With Cambrai in allied hands the German positions at Douai, St. Quentin and Laon will be perilous.

North of St. Quentin the allies are forging ahead in the region of Le Catelet, despite strong German counter attacks. Here the allies are within the Hindenburg line and are outflanking St. Quentin on the north. Between St. Quentin and Laon the French are holding their gains against heavy German efforts made necessary because the French are in a position to outflank both St. Quentin and Laon.

In Champagne General Gouraud has resumed his drive northward toward the important German railway centers between Laon and Metz. Most of the hill positions are in his hands and the German communications are in great danger.

East of Argonne the Americans continue their pressure.

Before the signing of the Bulgarian armistice the allied troops in Macedonia had made further substantial progress toward the invasion of Bulgaria, and the liberation of Serbia. British and Greek troops are approaching Petrich, near the Struma river, while on the north the Serbs are pressing toward Uskub. East of Vele the Serbs are within six miles of the Bulgarian border.

PROGRESS MADE IN BREAKING HUN LOOSE IN FRANCE

(Associated Press Cable)

Paris, September 30.—The progress in breaking the hold of the German invaders on French soil is shown by the fact that no longer is any of the French departments entirely occupied by the enemy. The situation was es-

tablished by the re-capture of four communes of the department of the Ardennes.

SIGNED UP

(By Associated Press Cable)
Paris, September 30.—The armistice between Bulgaria and the allies was signed last night a Saloniki dispatch states.

General D'Esperey, the allied commander in chief in Macedonia, signed for the allies and the Bulgarian delegates for their government.

Instructions have been given by the government to General D'Esperey to proceed immediately to the execution of the conditions of the armistice.

PRESIDENT WILSON ADVOCATES THE PASSAGE OF THE SUFFRAGE RESOLUTION BEFORE SENATE

By Associated Press Dispatch.

Washington, September 30.—President Wilson today stepped into the breach of the Senate fight over the woman suffrage resolution and in a personal address in the Senate chamber asked for its passage as a war measure.

The President addressed the Senate as follows:

"Gentlemen of the Senate:

"The unusual circumstances of a world war in which we stand and are judged in the view, not only of our own people and our own consciences, but in the view of all nations and peoples, will, I hope, justify in your thought as it does in mine the message I have come to bring you.

"I regard the concurrence of the Senate in the Constitutional amendment proposing the extension of the suffrage to women virtually as essential as the successful prosecution of the great war of humanity in which we are engaged. I have come to urge upon you considerations which have led me to that conclusion. It is not only my privilege, it is also my duty to apprise you of every circumstance and element involved in this momentous struggle which seems to affect its very processes and its outcome. It is my duty to win the war and to ask you to remove every obstacle that stands in the way of winning it.

"I had assumed that the Senate would concur in the amendment because no disputable principle is involved but only a question of a method by which the suffrage is to be extended to women. There is, and can be no party issue involved in it.

"Both of our great national parties are pledged to equality of suffrage for the women of the country. Neither party, therefore, it seems to me, can

ENGAGED TO LEAD BAND THRU BERLIN STREETS

SECRETARY DANIELS

In an address to workers at the ammunition plant in Philadelphia, Secretary Daniels reaffirmed the stand the United States has taken that there shall be no compromise with Germany. "On my calendar in Washington," said the Sec'y., there is recorded an engagement, no date set to go with the Marine Band when it marches in the triumphal entry of General Pershing's victorious army in Berlin." Fifteen thousand workers cheered the secretary, who visited the plant to help celebrate the delivery within one year by the company of 1,000,000 rifles to the Government.

**BULGARIA COMPELLED TO CUT OFF
ALL RELATIONS WITH CENTRAL POWERS
RUMANIA AND SERBIA AGAIN ACTIVE**

Loss of Control in the Balkans is a Tremendous Blow to The Hopes of Germans That They May Escape Disaster. Turkey Will Soon be Driven to Make Peace With the Allies.

PARIS, SEPTEMBER 30.—(Associated Press Cable)—An armistice has been concluded between the allies and Bulgaria on the allies' own terms. The announcement was made officially today.

Bulgarian representatives agreed to an armistice—probably the first step in Bulgaria's withdrawal from the alliance with the Central Powers—a few days less than three years after she entered the war on the side of Germany. It was on October 8, 1915, that Bulgaria issued a manifesto announcing her decision to cast her lot against the Entente alliance. She had been 15 months in deciding her course.

WHY BULGARIA ENTERED WAR

In the manifesto issued at the time of her entrance into the war the Bulgarian government declared her trade interests and economic rights were "inseparably bound up with the Central Powers." It was added that Germany had offered Bulgaria in return for her neutrality the whole of Macedonia, including Uskub and Monastir.

A still greater territorial extension at the expense of Serbia was said to have been offered as a condition of active military assistance.

BOTH FACTIONS SOUGHT BULGAR ALLIANCE

During the period of Bulgarian neutrality both the Entente alliance and the Central Powers had made offers to Bulgaria, and Russia, who for years had protected Bulgarian interests, sent an ultimatum to Bulgaria early in October, 1915. She refused the Russian demands.

The Bulgarian manifesto said Bulgaria did not believe in the promises of the Entente and that Bulgaria "must fight at the victor's side."

SERBIA OVERRUN BY PRUSSAINS OF BALKANS

Her entrance into the war led to the overrunning of Serbia, Montenegro, and Albania by the armies of the Central Powers. Bulgaria's joining the Central Powers was one of the reasons that led Rumania to enter the war on the side of the Entente.

On September 14th Franco-Serbian forces attacked the German-Bulgarian line in Macedonia. Breaking through the allied troops rapidly advanced northward, driving a wedge between the wings of the German-Bulgarian front.

THE INEXORABLE TERMS OF ALLIES

As the armistice has been arranged on terms laid down by the allies it probably calls for occupation of Bulgaria by allied troops, with assistance of Bulgarian troops. Bulgaria probably will be compelled to break off communications from the Central Powers and withdraw her armies from Serbia, Greece, Rumania and other war theaters.

Before the allied troops can take over the occupation of Bulgaria, it is not unlikely the Bulgarian military party and Germany and Austria will make determined efforts to keep Bulgaria in the Teutonic alliance.

It has been reported that Bulgaria blamed Germany for her defeat in Macedonia, because reinforcements were not sent promptly. Since the announcement that Bulgaria had proposed an armistice reports have come out of Germany that troops were being hurried to Bulgaria. Germany not unlikely will make a strong attempt to keep control of the railroad from Berlin to Constantinople which runs through Sofia. Bulgaria's withdrawal not only would place Turkey in a perilous position, but would free Serbia and the southern bank of the Danube river from which the allied troops could advance into Austria-Hungary, where the political and economic situation has been much troubled.

From the allied standpoint the occupation of Bulgaria by allied soldiers probably would mean more than the defection of Russia has meant. There is a strong pro-ally party in Bulgaria and its leaders will seize the opportunity to more strongly oppose the German influence in Bulgaria, and may even seize the German dynasty headed by King Ferdinand.

AUSTRIA HAS NEW PLAN

AMSTERDAM, SEPTEMBER 30.—(Associated Press Cable)—A proposition that the presidents and vice presidents of the parliaments of belligerents and neutral states shall be invited to meet for an unbending discussion of the basis of peace has been introduced in the lower house of the Austrian Parliament.

GREAT AUDIENCE IS EXPECTED TO HEAR NOTED BAND

Tuesday Evening at 7:30, Hour Set for Band Concert When Naval Band of More Than Half Hundred Pieces Comes—Three Prominent Speakers Coming.

The Liberty Loan Committee has completed all plans for caring for the big Naval Band, composed of young men from the Naval Training Station at Great Lakes, Ill., and for the concert which is to be given in this city tomorrow night at 7:30, and following which three prominent speakers will deliver short addresses.

The band, trained by Sousa himself, is sure to delight everyone of the several thousand persons who assemble to hear it.

Arrangements have been made for a huge band stand on Court street, in front of the court house, and the concert will last to about 8:30 at least.

Following the concert, former Governor Frank B. Willis, Hon. John Kramer and Judge Pierre White, Municipal Judge of Cleveland, Ohio, will deliver short addresses to the assembled crowd, in the interest of the Fourth Liberty Loan campaign.

One of the largest audiences ever assembling for a band concert is expected, the weather permitting.

Should the weather be bad, the concert will be held in Memorial Hall.

FUNERAL SERVICES FOR FRED HILLERY

The funeral services of Fred Hillery will be held Tuesday morning at 9:00 o'clock, at St. Colman's church. The body arrived in this city from the Great Lakes Training Camp on Sunday morning at 5:37 o'clock, and was taken at once to the home of the parents, Mr. and Mrs. Thomas Hillery, on North Fayette street.

Following the services at St. Colman's church interment will be made in St. Colman's cemetery.

WIRELESS AIDING ARTILLERY WORK

London, September 25.—(Associated Press Correspondence).—The efficiency of wireless telegraphy has been enormously increased during the war, a semi-official statement issued by the Royal Air Force says. In particular, great progress has been made in sending wireless messages from aircraft.

In 1914 various difficulties restricted the use of wireless in conjunction with airplanes. Most of these have been overcome and the use of wireless communications from the air has been of great assistance to the Allied forces in all military operations.

Without the assistance of wireless the use of airplanes could never have been developed so fully as it now is. "Artillery observation" by airplane is among the most profitable of all the uses of aircraft.

Far below in the batteries the wireless operators receive the corrections from the airplane, till the signal comes to indicate that the right range has been found and, later, the "cease fire" signal to indicate that destruction has been accomplished.

The extended range of aircraft wireless leads to its use from airplanes on long reconnaissance, and the operator in the hut on the airdrome, miles behind the lines, is the first to learn, perhaps, of a new German howitzer emplacement perhaps of the massing of troops intended to effect a surprise—a vain hope, thanks to the wireless.

DISPLAY THE FLAG DURING CAMPAIGN

All citizens of Washington and Fayette county are requested by Chairman C. P. Ballard of the Liberty Loan Committee, to follow the practice being observed elsewhere by displaying the American flag during the Liberty Loan Campaign, and with a particularly liberal display on Tuesday, when the Great Lakes Naval Training Station Band will be here and give a concert at 7:30 o'clock.

Persons displaying the flag are requested to exercise care that it is hung properly. If attached to the front of a building or suspended in front of a home, it should be so hung that the field of stars is in the upper right hand corner.

CAPACITY HOUSE GREETED YOUNG GOV'T SPEAKER

A capacity house greeted Mr. Davis Edwards, recalled by the draft from the staff of the University of California, at the First Presbyterian church Sunday night and both in its size and absorbed attention paid the highest possible compliment to the talented young speaker.

In a difficult and excellently arranged patriotic program, serious in its nature, yet lightened so as to prevent prolonged sadness, Mr. Edwards brought to his audience part of the subject matter which he has been using the past year in Government work in the West.

His wonderful voice, with its rare carrying quality and sympathy, reached the farthest part of the church and his program displayed both his ability and versatility. Whether in the Scotch, Irish, French or difficult Cockney dialect, Mr. Edwards was rarely finished.

In dramatic intensity his highest work was attained in "The Hell Gate of Solosons," and his closing with the lines found on body of an unidentified Australian soldier, was most impressive.

Washington people welcomed the opportunity to hear Mr. Edwards before he leaves for Camp Jefferson.

The choir, directed by Miss Woodward, Mrs. Davis, organist, led in patriotic songs, and Miss Roberta Shokesbury added an effective soprano solo to the program.

SOME EVADED THE GOVERNMENT ORDER BY USING DARKNESS

During the daytime Sunday the observance of the government's gasless Sunday order was the best observed of any of the five gasless Sundays, but under cover of darkness, before daybreak and after nightfall, a number of violators were in evidence in this city and at other points in the county.

However the number of violators was small, and to use the words of a local citizen it was "quite evident by the speed maintained by the violators that they were just as much ashamed at being out as the citizens in general were in seeing them out."

Some numbers were taken and there is probability of prosecutions as has been the custom in some other communities.

The beautiful weather of Sunday brought out a great many pedestrians as well as persons using horse-drawn vehicles, and there was no serious protest in evidence from anyone.

NOTHING ON "FUZZY"

Walter Fultz, over in France, writes to his mother, Mrs. J. E. Fultz: "You write me that Ed Reser is flying. Ed has nothing on me. In fact I think I'm beating him to it. Seeing Paris above the clouds is some sensation."

From this "fuzzy's" friends naturally infer that he is doing a little flying himself.

BUY LIBERTY BONDS

What is My Share of the Cost of the War?

In order that the resources of the nation may be effectively mobilized to win the war, every patriotic citizen should ask himself the question:

“How much ought I to contribute in the way of personal effort and from my resources to do my full share?”

Our brave soldiers and sailors are giving their ENTIRE efforts to the cause. They are giving one hundred per cent of effort and, if necessary, will give life itself.

Our lives are not in danger and the inconveniences are small indeed in comparison with what our men are facing day and night.

We must do absolutely everything in our power and strain our resources to the limit to buy LIBERTY BONDS.

Therefore, the answer to the question “What is my share?” is, briefly, “Everything that you can possibly do and give!”

What Will Germany Do?

With the allied armies driving forward at four different and widely separated points on the Hindenburg line, with virtually the whole German defense system from the North Sea to Verdun subjected to the most tremendous pressure of the entire war, with Bulgaria out of the war as a fighting force and Turkey, as a consequence to Bulgaria's collapse, isolated and removed from the war also, close observers are beginning to speculate as to just what policy the German general staff will adopt to escape the disaster which threatens to overwhelm the Hun armies.

Will they finally conclude, if they have not already done so, to make their last stand and face a Waterloo or a Sedan on the present line, rather than remove, by retreat, the zone of conflict to the banks of the Rhine and thus invite what they, cowards that they are, have dreaded most of all, a visitation on their own land of the horrors of war?

Unless Germany can withdraw her armies, measurably intact, from their present predicament, a stand on the banks of the Rhine would avail little else than to delay the inevitable until next year, and that only in case the allies are unable to bring up their forces before winter casts its chill mantle over the earth, making active campaigning impossible.

With the Hindenburg defense system broken through and crossed at any place the allies have seen fit to launch an attack with the anchor posts all tumbling down, in holding to its present line the Hun army is inviting disaster which will engulf their entire fighting forces.

The present high tension, with which the allies are driving forward at every point, insures the final defeat of the Huns before the close of this season. There is only one escape and that is withdrawal before it is too late.

The allied commanders and the whole civilized world would prefer to see Germany stand where she now stands on the Hindenburg line.

That means destruction for the enemy sooner.

Last Days of September

September is leaving us, for this year, the memory of ideal autumn days—beautiful beyond words to express—beautiful only as are perfect autumn days.

The last three days of the month have made up in beauty and "seasonalness" as the weather bureaus term it now days, for the cold, rainy days which disappointed us so much in the earlier days of the month.

We have had frost, but only that white frost which makes the mornings more glorious and paints the foliage of the trees with all that wealth of gorgeous coloring we love so much.

We are certain to remember September, as it has impressed itself upon us during the last few days, and we will forget the unpleasant days—that's the best part of remembering things, to remember the best.

Not only have we the joys the month has given us in passing days to remember, but we will have the substantial ideal harvest and seed time weather.

It has been a busy and a happy time during the last days of September.

The Part of Our Boys

America has just cause to be proud of her brave soldiers with the allied armies in France. They were called upon to take up the burden of active fighting in the most terrible war of all time, with comparatively little training in active warfare.

The American soldiers stepped promptly into line beside the veterans of four years' experience and against the most brutal forces of all time, seasoned by four years of active campaigning.

It was the Americans who were hurled into the breach at Chateau Thierry when the German drive was at the crest, when the road to Paris was open and when the allied forces were passing through the darkest hour of the war.

They stopped the German rush and by their victory and their boundless enthusiasm, sent the electric spark of hope, confidence and determination through all the allied lines. The rally came and with it the counter attack in July and the rest is history now—a glorious page in the history of mankind.

What those nearly two million red-blooded, wholesome, clean thinking, physically strong, mentally alert, confident Americans have meant to the war-weary French, British, Belgians and Italians is told in the history of the happenings since that night at Chateau Thierry, when with never a lingering doubt or fear of the outcome, our boys went into action.

 To respond to so noble a cause.

His boys "over there,"
 As you all are aware,
 Are fighting and giving their all;
 And the least we can do
 Is to help get them through
 By response to this Liberty call.

He who is right
 Is twice armed for the fight
 And that should inspire every one
 To fight or to give
 That all who here live
 May contribute till fighting is done.

How grand it will be
 When over the sea
 Our men shall have helped to release
 Those nations afar
 From the horrors of war.
 And establish a permanent peace!

Since a woman can't fight
 I contribute my mite
 By calling a pen into play;
 Not so mighty a sword,
 But sometimes a word—
 May hearten and help out the day.

HUNS RESISTING DESPERATELY

(American Press)
 Paris, Sept. 30.—The American continue to make progress northwest of Verdun, although slowly. The advance was greatest on the right of the sector and least in the center, where the Germans counter attacked violently. The enemy gained nothing by these efforts, however, except to slow up the American advance temporarily. On the American left the Germans have resorted to heavy machine gun and trench mortar fire. The artillery activity has increased along the entire line, with the Americans easily outshooting the enemy. East of the Meuse the German artillery fire has been quit heavy.

At Exermont, just east of the Argonne forest, the enemy offered bitter resistance to the Americans. Northeast of Nantillois, somewhat east of the center, the Americans have already advanced beyond their positions. The Americans there took prisoners from the Bavarian reserve division, which had been resting in Alsace and just moved into the line.

Enemy resistance increased steadily on the left of the American sector, and a number of new German units have been identified. The enemy troops in many instances held on to machine gun nests until they were literally wiped out. The American extreme left continues to advance steadily along the edge of the Argonne forest.

"KNOCK THE GERM OUT"

ALLIES SMASHING HINDENBURG LINE

(American Press)

Paris, Sept. 30.—The Germans have been unable to check the allied advance on four sectors of the western front, from the North sea to the Meuse river.

Important strategic points are being taken from the Germans by the sledge-hammer blows of the French, British, American and Belgian forces. Nowhere has there been an attack to compare with the present thrust. The new thrust of the Anglo-Belgian armies was a complete surprise to the Germans and is meeting with marked success. It is being made against territory held by the enemy since 1914. The number of prisoners increases hourly and the advance goes on steadily, despite the fiercest resistance of the Germans.

The power of the Anglo-Belgian attack is shown by the fact that the Germans have lost the great Houthulst forest and the village of Gheluvelt, the key to the Ypres-Menin road.

Meanwhile the plight of the Germans in the Cambrai sector has been aggravated by the loss of valuable railway communications. The enemy in that region is now in a serious position and with but one alternative, that of abandoning the Hindenburg line, which already has been pierced at four points. On the Champagne-Verdun front the armies of Generals Gouraud and Lâget are progressing steadily.

The French and American forces in the last 24 hours captured the strong positions of Somme-Py, Manre, Gratreuil and Bouconville, and have extended the advance east of the Argonne. Since the beginning of the attack in this section General Gouraud has broken the resistance of 21 German divisions.

General Ludendorff's task is becoming desperate. His mobile reserve has decreased markedly and he has no sector from which he can take troops to meet any one of the allied thrusts.

Mangin's Master Stroke.

General Mangin's army performed a master stroke in the capture of Fort Malmaison, and this success is expected to lead to the capture of the entire Chemin-des-Dames ridge. The German positions on the ridge are being subjected to a heavy artillery bombardment.

The town of Cambrai is now under British guns. Here the main Hindenburg line has been pierced and the allied troops are sheltered in commodious German dugouts. The battle is continuing in favor of the allies and the Germans are in the midst of confused retirement. Gouzeacourt and Maroing are in allied hands.

French, British, American and Belgian troops in the last three days have captured 40,000 prisoners and 300 guns, it is estimated here. Since July 18 the allies have captured 200,000 prisoners, 3,000 guns and 20,000 machine guns and enormous quantities of material. This does not take into account the operations in Macedonia and Palestine.

In the Champagne and north of the Aisne the armies of Generals Gouraud and Mangin continued the attack. The Germans are resisting desperately in Champagne. North of the Aisne the Germans are retiring on the Ailette. French troops have

captured Eilian, Chavignon, Ostel and Saint Gerthe.

The American army now operating on the Champagne front has captured Brilles-sur-Meuse and Romagne, west of that town on the outskirts of the forest of Romagne, and the attack is progressing favorably.

The German forces of occupation in Roumania began to retire from that country Friday, according to information received in Swiss political circles. There are persistent rumors in Switzerland that the Roumanian population has revolted. The German civil authorities are said to be removing their archives hastily.

GERMANS SHELL HOSPITAL TRAIN

(Associated Press Correspondence)

London, Sept. 30.—Major John Van Schaik, Deputy Commissioner for Belgium of the American Red Cross, who spends practically all his time at the Belgian front superintending relief work there, has reported the bombing by the Germans of a hospital train in a town in the Belgian army zone.

"The train was made up of sixteen cars," he writes. "A bomb made a direct hit on the baggage car, which was carrying all the stores for the train, and most of the kits and personal belongings of the staff. The car was completely demolished, but the German was once again foiled, for the American Red Cross was able to replace nearly all the material lost within a few hours."

Social and Personal

Handsomeness engraved cards bearing the following announcement were received by Washington friends Monday.

Mr. and Mrs. T. N. Wain announce the marriage of their daughter
Jessie Amelia

to
Mr. Harry Alvin Buchanan on Saturday Sept. the fourteenth Nineteen hundred and eighteen Washington C. H., Ohio

Mrs. M. S. Daugherty and Mrs. H. E. Daugherty gave an exceedingly pretty birthday party Saturday afternoon for the winsome daughter of the house, Janet, who celebrated her sixth natal day.

The spacious Daugherty home on Hinde and Temple streets was thrown open to thirty children, who romped over the lawn or froliced gleefully through the rooms and sun porch, turned over to the vivacious little hostess for entertaining her guests. The children spent a very merry afternoon, reaching the climax of their fun in a donkey contest. Marjorie Penn won a "ghost" as first prize and Edgar Barnett the consolation gift.

The youngsters were seated in the dining room for the collation consisting of their favorite delicacies.

The tables were lovely, with a big birthday cake, on which burned six pink candles, and clusters of pink and buff roses at either end.

The birthday cake was baked by Janet's great grandmother, Mrs. D. C. Michael in her great great grandmother's cake pan—an unusual incident, may well be tenderly remembered on later birthdays.

Assisting in entertaining the children were Mesdames R. C. Hunt, Frank C. Parrett and G. L. Sprague.

Lt. Harold B. Smith arrived Sunday evening for a few days' visit at the home of his aunt, Mrs. Harley Floe. The young soldier has been in training in the Coast Artillery, Fortress Monroe, Va., and recently appointed Second Lieutenant. He reports to Ft. Castle, N. C., next Monday.

Miss Jeanette Weaver is confined to her home by illness.

Mr. H. B. Dahl had as his guests at a house party at Sweet Briar Ridge over Sunday, Messrs. D. S. Craig, E. J. Light, Frank M. Kennedy, W. B. Rogers, Joseph H. Harper, George H. Hitchcock.

BEAUTIFUL SERVICES HONOR MISS OGLE

Simple, sweet, rarely beautiful and impressive were the farewell services in tribute to Miss Florence Ogle held Saturday afternoon at the First Baptist Church.

A large gathering of devoted friends and the associates of church social and club life through years of congenial fellowship, was assembled and the Daughters of the American Revolution honored Miss Ogle as the dominant factor in the local chapter's organization and its first Regent, by attending in a body. By request only the flowers of the family lay in remembrance upon the beloved woman's casket, but the incense of warm affection and admiration permeated the atmosphere, charged as it was with the sense of community loss entailed in this death.

Mr. Harold Phillips, of Granville, conducted the brief service and followed his wonderfully impressive reading of the scriptures with a very beautiful talk. From the text "She is not dead, but sleepeth," and the theme of "Life," the minister evolved in the choicest language thoughts unusual and comforting. He specially impressed the thought of death as a rest and a sleep; the realization that sleep is but temporary and the mystery of life and death—a wonder that science with all its achievements has never been able to solve by the creation of life and the prevention of death.

Misses Edith Gardner and Elizabeth Sheen sang with much tenderness "Crossing the Bar," which by Miss Florence's request had been sung at the funeral of her sister, Miss Alfareta Ogle.

Miss Gardner also sang with exquisite sympathy "My Tash."

A number of friends accompanied the family to the Washington cemetery for the burial in the family lot. The pall-bearers were Messrs. T. H. Craig, D. S. Craig, H. G. Coffman, Wm. Fogle, W. S. Willis and Dr. J. M. Boyd.

LOCAL DOCTORS ARE OVERWORKED

Virtually all local physicians are overworked as result of the great epidemic of influenza and kindred ailments, and the drug stores have been swamped with purchases of drugs meant to aid in combating the epidemic.

One physician Saturday night was unable to obtain any rest at all, and at least one other did not retire until four o'clock Sunday morning. One or two physicians have been suffering of the disease themselves, and were unable to work for several days.

The city schools are still open but scores of pupils are missing from their accustomed places and there is a possibility of the schools closing, although this will probably not be done unless other public places are closed.

There is no apparent abatement in the spread of the epidemic, and new cases throughout the city and county are occurring daily. Only two deaths have been reported as result of the disease.

GIVE OLD CLOTHES TO AID DESTITUTE IN THE WAR ZONES

Tomorrow, October the first, opens the Red Cross drive for destitute Belgian and French who are hemmed in back of the German wall. Five thousand tons of clothing is asked by the American Red Cross and of the Lake Division's allotment of 400 tons, Fayette county must contribute her share.

Every kind of garment for all ages and both sexes is needed—in addition, piece goods—light warm cotton flannel and other kinds of cloth to make garments for new-born babies; ticking, sheeting, blankets, woolen goods of any kind; shoes of every size; scrap leather for repairing foot wear.

The suggestion is timely that if people have no old or worn clothing they visit the stores and buy materials for the making of necessary garments.

Winter is coming—the valiant people of this tragic and hemmed in country will freeze to death unless people respond to this call of the Red Cross.

The Woman's Committee, C. N. D., at the request of the Red Cross, has in charge the collecting of Fayette's quota.

Give the drive a good start on its first day by sending every garment or piece of material you can to the Red Cross headquarters in the Y. M. C. A. building on North Main street.

NEW WAR FOOD FOR THE HUNS

By Associated Press Dispatch.

Amsterdam, September 30.—Germany is threatened with a new war food called lupine bread. To work a process to convert the lupine, a leguminous plant into food for men and beast on a large scale, a company has been formed at Chemnitz, Saxony, with a capital of 3,000,000 marks.

The lupine was held in no particular esteem until about fifty years ago, when a German chemist discovered a process by which the bitter taste of the plant was eliminated and the vegetable fat and albumen which it contains were made serviceable for human consumption. Now a German food expert has taken up and perfected the old recipe. It is said that lupine meal makes quite a palatable and wholesome "bread," while the refuse is excellent food for cattle. The German government, it is announced, is about to take the lupine cultivation under its official wing.

QUEEN IN NEW WAR ON BERLIN

QUEEN MARIE OF ROUMANIA

A furious agitation is under way in Rumania, headed by Queen Marie, for a redeclaration of war on Germany, according to a dispatch from Amsterdam, via London, quoting the "Norddeutsche Allgemeine Zeitung," the official German Government organ. The agitation is said to be the reason for the hurried visit to Bucharest of Dr. Solf, the German Colonial Minister. Field Marshall Mackensen also is said to have been ordered to Rumania.

DESCRIBES GERMAN-MADE PEACE IN ROUMANIA

LONDON, September 20.—(Associated Press Correspondence)—"What a German Peace is like," is the heading on an article written for the Weekly Dispatch by Annie Parr, who has just arrived in London from Bucharest.

"I was in Bucharest, when the Germans entered the Rumanian capital," she writes. "They had evidently decided that it would not be wise to shock the world with another Belgium, and they were careful to keep their troops under control, but they were the masters. I remember a male friend of mine who was returning home from dinner in evening clothes being stopped in the street in the middle of the winter and compelled to sweep away the snow for hours in the bitter cold."

"Many a beautiful home was wrecked. The Germans had no scruples about converting drawing rooms into stables for their horses, and front gardens into cemeteries for their dead. "Terrible atrocities were committed by the Bulgarians and the sufferings of the prisoners they took were unspeakable. Of 30,000 Rumanians taken prisoners only

8,000 returned, and they were in an appalling condition. They were skeletons, scarcely able to walk. At the station they seemed too weak to eat or drink. When we offered them food they simply sank down on to a bench and burst into tears."

"It was a most tragic homecoming for the Rumanian soldiers, following the crushing peace terms. It has left on my mind an unforgettable impression of what a German peace is like. Those soldiers came back in rags and half-starved to homes that had been reduced to poverty. They had to witness in silence the insolent bearing of the German soldiery in their streets. The officers were told they would either have to salute the German officers or take off their uniforms. They preferred to take off their uniforms."

"There are still plenty of German soldiers there looking fat and well and at no pains to conceal their satisfaction at the conclusion of a peace which has put a crushing economic burden on to Rumania and bound the country and its trade hand and foot to the Germans. The one hope of the people is an Allied victory."

OPENING GAME OF SEASON IS LOST TO XENIA BUNCH

Wakened by Influenza the Local Boys, Nevertheless, Put Up Hard Game But Are Forced to Take Small End of the 28 to 6 Score—Meet Greenfield Next Saturday.

The Washington eleven lost their first game of the season, Saturday to their old time rivals, Xenia. While the score does not indicate it, the game was close and bitterly contested up to the last minute of play. The score was 28 to 6.

Xenia won the toss and received at the south goal. By a brilliant forward pass and a series of line backs they were able to put the ball across during the first few minutes of play. Washington then received and rushed the ball up the field. Rogers grabbed one out of the atmosphere and raced across the goal line for Washington's only touchdown. Willis punted out but Harper fumbled and they lost their try for goal. When Washington again got possession of the ball they rushed it down the field by fierce line backs and would undoubtedly have scored a gain if the half had been a minute longer.

Xenia scored twice in the third quarter, and once in the last. The Washington squad was greatly handicapped by the fact that one of their regular line men was ill, and could not go with the team, while two men who played Saturday were suffering from the influenza the greater part of the week.

Nevertheless the boys put up a hard fight and they expect to gain back their lost laurels when they meet Greenfield at Greenfield next Saturday.

The lineup was as follows: L. E. Wilson; L. T. Harper; L. C. Dean;

C. Captain Rearden; R. G. Cockerill; R. T. Haynes; R. E. Rogers; Q. Craig; L. H. Willis; R. H. Edwards; F. B. DeWeese. Substitutions—Dern for Wilson, Wilson for Dern. Final score, Xenia 28, Washington 6.

DREAM OF HUNGARIAN VANQUISHED NOW SAYS BONAR LAW

(Associated Press Cable)
London, September 30.—Speaking at the Guild Hall today Andrew Bonar Law the Chancellor of the Exchequer, said a Bulgarian convention had been signed by which hostilities ended today at noon.

Bulgaria by the terms fixed gives up the control of the railways, the Chancellor stated. This convention means, he said, that communication between Germany and the East in that direction has been cut off and that the German dream of a German Middle Eastern Empire has gone forever.

"There is no clanging of metal here at the wonderful success of last week and this," he remarked. "But joy bells are ringing in all our hearts."

SURRENDER OF BULGARIA WAS UNCONDITIONAL

(By Associated Press Cable)
London, September 30.—News that Bulgaria had yielded to the allies' terms was received here this morning. Reuters' Limited claims that Bulgaria's surrender was unconditional. The Serbian legation received an announcement of the Bulgarian surrender.

FOCH FIGHTING FIVE BATTLES IS HISTORIC EFFORT

(By Associated Press Cable)
Paris, September 30.—Marshal Foch is fighting five battles simultaneously and it is a feat in the history of war. Each battle is so timed and played that each army supports another, all forming an indispensable part of the whole effort.

Marshal Foch alone knows when the allies will strike the decisive blow. The enemy is fighting well. Like all great dramas which have changed the fate of the world the one being played during these fearful hours will bring triumph. Victory is in sight, says the military writer in the Matin.

HAIG SMASHES LINE ON LONG FRONT FOR GAINS

(By Associated Press Cable)
London, September 30.—(1:45 p. m.)—Field Marshal Haig's forces today smashed the Hindenburg line on a front of 8 miles to a maximum depth of 2 miles. The British attack was made just north of St. Quentin.

The British and Belgian armies in Flanders have advanced for an average depth of 5 miles and a maximum depth of 8 miles.

MURPHY SENT BACK TO SOFIA

(By Associated Press Dispatch)
Washington, September 30.—Domink Murphy, American Consul General in Sofia who accompanied the Bulgarian delegates to Saloniki where they arranged the armistice, has been ordered back to his post by the State Department.

No criticism of Mr. Murphy is made here, but it is made plain he had no instructions to participate in the negotiations.

PRESIDENT WILSON ADVOCATES PASSAGE OF SUFFRAGE ACT

(Continued from page one)

justify hesitation as to the method of obtaining it.

"This is a people's war and the people's thinking constitutes its atmosphere and morale, not the predilections of the drawing room or the political considerations of the caucus. If we be indeed democrats and wish to leave the world to democracy we can ask other peoples to accept in proof of our sincerity and our ability to lead them whither they wish to be led, nothing less persuasive and convincing than our actions. Verifications must be forthcoming when verification is asked for. Our professions will not suffice. And in this case verification is asked for—in this particular matter.

You asked by who? Not through diplomatic channels; not by foreign ministers. Not by the intimation of parliament. It is asked for by the anxious suffering people with whom we are dealing and who are willing to put their destinies in some measure in our hands if they are sure that we wish the same things that they do.

"I do not speak my conjecture. It is not alone the voice of statesmen and of newspapers that reach me, an dthe voice of foolish and intemperate agitators do not reach me at all. Through many, many channels I have been aware what the plain struggling workaday folk are thinking upon whom the chief terror and suffering of the war falls.

"They are looking to the great, powerful, famous democracy of the west to lead them to the new day for which they have so long waited; and they think in their logical simplicity shall play their part in affair that democracy means that women along side men, and upon an equal footing with them. If we reject measures like this in ignorant defiance of what a new age has brought forth of what they have seen but we have not, they will cease to believe in us; they will cease to follow or to trust us.

"They have seen their own governments accept this interpretation of Democracy, the old governments like that of Great Britain, which did not profess to be democratic, promised readily this justice to women.

"Are we alone to refuse to learn the lesson? Are we alone to ask and take the utmost that our women can give—service and sacrifice of every kind—and still say we do not see what title that gives them to stand by our sides in the guidance of the affairs of their nation and ours? We have, made partners of the women in this war; shall we assist them only to a partnership of suffering and sacrifice and toil and not to a partnership of privilege and right?

"This war could not have been fought either by the other nations or America if it had not been for the services of the women—services rendered in every sphere—not merely in the fields of efforts in which we have been accustomed to see them work, but whenever men have worked on the very edges of the battlefields.

"We shall not only be distrustful but shall deserve to be distrustful if we do not enfranchise them with the fullest possible enfranchisement, as it is now certain the other great free nations will enfranchise them. We cannot isolate our thought and action in such a matter from the thought of the rest of the world. We must either conform or deliberately reject what they propose and resign the leadership of liberal minds to others.

"The women of America are too noble and too intelligent and too devoted to be slackers whether you give or withhold this thing that is mere justice. But I say the magic in it will work in their thoughts and spirit if you give it to them. I propose it as I would propose to admit soldiers to the suffrage, the men fighting in the field for our liberties and the liberties of the world, were they excluded. The task of the women lie at the very heart of the war.

"I know how much stronger that heart will be if you do this just thing and show our women that you trust them as much as you in fact and of necessity depend upon them. Have I said the passage of this amendment is a vitally necessary war measure and do you need further proof?

Do you stand in need of the trust of other people and of the trust of our own women? Is that trust an asset or is it not? I tell you plainly as the commander-in-chief of our armies and of the gallant men of our fleets and the present spokesman of this people in our dealings with the men and women throughout the world who are now our partners as the responsible head of a great government which stands and is questioned day by day as to its purposes; its principles; its hopes, whether they be serviceable to

men everywhere or only to itself and who must himself answer these questionings or be shamed as the guide and director of forces caught in the grip of war and by the same token in need of every material and spiritual resources this great nation possessed. I tell you plainly that this measure which I urge upon you is vital to the winning of the war and to the energies alike of preparations and of battle.

"And not to the winning only. It is vital to the right solution of the great problems which we must settle and settle immediately when the war is over. We shall need then in our vision of affairs as we have never needed them before, the sympathy and insight and clear moral instinct of the women of the world. The problems of that time will strike to the roots of many things that we have not hitherto questioned, and I for one believe that our safety in those questioning days as well as our comprehension of matters that touch society to the quick, will depend upon the directive and authoritative participation of women in our councils. We shall need their moral sense to preserve what is right and fine and worthy in our system of life as well as to discover just what it is that ought to be purified and reformed.

"That is my case. This is my appeal. Many may deny its validity if they choose, but no one can brush aside or answer the arguments upon which it is based. The executive tasks of this war rest upon me. I ask that you lighten them and place in my hands instruments, spiritual instruments, which I do not possess, which I sorely need and which I have to daily apologize for not being able to apply.

URGENT CALL TO LOCAL WOMEN FROM CAMP SHERMAN

Mrs. Eva J. Penn, chairman of the Red Cross workshop, has just received a wire asking that several thousand face masks be rushed immediately to Camp Sherman. They are needed at once on account of the present epidemic which the authorities are making strenuous efforts to conquer. Every man in camp is to wear one as a precaution and they will play an important part in breaking up the epidemic.

Every available woman is requested to be at the Red Cross headquarters Tuesday morning, when the work will be begun and rushed to completion as fast as possible in both Surgical Dressings and the Red Cross work shop rooms.

Mrs. Penn urgently requests every woman who can possibly do so to assist in this work and be at headquarters either Tuesday morning of afternoon—both if possible—and until the masks are finished.

FARM NOTES

Sheepmen To Meet Oct. 4.
A big sheepmen's meeting at the Southeastern Ohio Test Farm, at Carpenter, Meigs County, will be held on Friday, October 4, under the auspices of the Ohio Agricultural Experiment Station, and the Ohio State University. Following a visit to different parts of the farm, a basket picnic dinner will be served at the farm grove at 11 o'clock.

The following program of talks will be given: Improving the Flock by Breeding, Professor C. S. Plumb, Ohio State University; Results of some Experimental Work with Sheep, J. W. Hammond, Ohio Experiment Station; Demonstration in Examining Sheep for Parasites, Dr. C. A. Lueder, West Virginia University; Demonstration in Treating Sheep for Parasites, E. C. Schwan, Southeastern Test Farm, Carpenter; Co-operation in Sheep Breeding, J. F. Walker, Secretary, Ohio Sheep and Wool Growers' Association, Gambier. Visitors are invited to bring their lunch, as Carpenter has no restaurants or hotels.

Combating Bot Flies.
The most recently developed method of combating the common bot-fly of horses is to rub the hair on the fore legs, throat and shoulders of the animals with a two percent solution of carbolic acid. Care should be taken to rub the solution on the hairs wherever the eggs of the bot-flies are noticed. Kerosene rubbed on these eggs does not prevent them from hatching. The flies which lay these eggs are the parents of the bots which attach themselves to the walls of the horse's stomach and impair the digestion. The larvae are taken into the mouth by means of the horse licking the hairs on its legs or body and then move to the stomach where they feed during the winter. The flies appear in great numbers in the fall and are a source of great annoyance to horses.

Farm Building Has The Right-of-Way

The recent Government Bulletin on building construction DOES NOT RESTRICT OR PROHIBIT FARM IMPROVEMENTS.

As we understand the ruling, what the Government is trying to control is the building of large factories, office buildings, public schools, or other construction that would involve large amounts of material, labor or money, and would not contribute, directly or indirectly, toward winning the war.

It is obvious that the Government would encourage all kinds of farm building that will conserve GRAIN, LIVE STOCK AND FOOD OR THAT WILL PROVIDE MORE SUITABLE HOMES FOR TENANTS AND OTHER FARM EMPLOYEES.

Seventy-five per cent. of the material we have sold this year has gone into farm buildings of various kinds. But we would suggest that you do not delay any farm improvements contemplated this Fall, as on account of the increased movement of coal and other supplies it will be difficult to get lumber shipments later on.

WOULD REGISTER WOMEN OF U. S.

By Associated Press Dispatch.
Baltimore, Md., September 30.—Registration of young women as well as men for industrial training in peace times as well as in war times was urged by Colonel Theodore Roosevelt in a speech here Saturday opening the Fourth Liberty Loan Campaign. "We now have an approach to the universal service which some of us have for years been demanding," Colonel Roosevelt said. "We now have all men from 18 to 45 required to serve their country and required to register. Let us make this system permanent and let us use it for the purposes of peace no less than for the purposes of war. Let us extend the principles to women no less than to men. Let us have suffrage on service. Let us demand the service from women as we do from men, and in return give the suffrage to all men and women who in peace and war perform the service, and to no others." Colonel Roosevelt declared young women should be registered just as men are. "I would give them both," he declared, "certain fundamental forms of industrial training—training in the things that are fundamental in the ordinary work of the ordinary man and woman in their business occupations and in and around their homes; in the things which it is good for every man and woman to know."

..Your Service..

THE Classified Service is the people's service, and they should make the most of it. Through the medium of the "want ads" they are afforded an effective and inexpensive method of doing numerous things—finding lost articles; renting, selling and buying property; selling and buying what they have for sale and what they want to buy. In fact, the scope of the "want ads" is limited only by their use.

BIG SHIP HITS MINE OFF COAST

(American Press)

Washington, Sept. 30. — It is officially reported that the battleship Minnesota struck a mine off the Delaware breakwater. There were no casualties and the ship proceeded to port under her own power.

The navy department issued this statement: "The navy department is informed that the battleship Minnesota struck a mine off the Delaware breakwater. There were no casualties, according to reports reaching the department, and the Minnesota proceeded to port under her own power."

There was no indication as to the extent of the damage to the ship nor whether the mine was an enemy one. However, naval officers recalled that mines were laid in these waters by the submarines which carried out the first raids off the Atlantic coast last May and June, and that the oil tank steamer Herbert L. Pratt was sunk by striking one of them. The fact that the Minnesota was able to reach port without assistance was accepted as indicating that the mine struck the ship near the bow and that she was not badly damaged.

WELSH ENLISTS AS PRIVATE IN ARMY

FREDDIE WELSH

Freddie Welsh, former lightweight champion of the world, has silenced all knockers by enlisting in the United States Army. Welsh is a private and is stationed at the medical barracks, Washington. He is a born Englishman and has a wife and two children. His big health farm which he had been operating at Summit, N. J., since his defeat by Benny Leonard, is closed for the duration of the war.

The Minnesota is of the pre-dreadnought type, built at Newport News, Va., in 1905. She is of 16,000 tons displacement, 450 feet long and in normal times carried a complement of 985 officers and men. Her armament consists of four 13 inch, eight 8 inch and a number of smaller rifles.

SERUM REMEDY

(American Press)

Washington, Sept. 30.—Vaccination with a recently discovered serum, which from tests just completed at several army camps has been found to be an almost positive preventive of contraction of pneumonia, will be used to combat the epidemic of Spanish influenza, which has made its appearance in every state and in all but a few army camps, causing many deaths. Use of the vaccine will be widely extended, congress having appropriated \$1,000,000 to be used by the public health service in fighting Spanish influenza and other communicable diseases. The public health service, aided by the medical forces of the army and navy, immediately took steps to render effective aid to all districts in which influenza has made its appearance. Nurses and physicians in large numbers will be dispatched to the affected states and training camps.

TRAVELING SALESMAN

Tells How He Regained Strength, Ambition and Vim.

Atlantic, Iowa.—"I am a traveling salesman and was rundown, worn out, no appetite and no ambition my druggist told me Vinol was what I needed and within a few days after taking it I commenced to gain and it built up my health and strength so every spring and fall I take it to build me up and it keeps me in splendid condition."—W. E. Brockelsby.

The reason we guarantee Vinol is because it is a constitutional remedy containing beef and cod liver peptones, iron and manganese peptones and glycerophosphates the most successful tonics known. Blackmer & Tanquary and druggists everywhere.

RED CROSS ACTIVITIES

Christmas Packages for Soldiers.

Lake Division, Red Cross headquarters issued the following statement regarding the shipment of Christmas parcels to men in the American expeditionary forces:

"The War Department wishes each man to receive only one parcel of standard size and weight. To carry out this plan the army authorities are distributing Christmas parcel labels to men abroad, who will mail them to their relatives and friends. No parcel will be accepted for mailing by any post office unless it carries a label received from a man abroad.

"A few days ago it was announced that Red Cross Chapters would provide cartons in which these Christmas parcels could be sent abroad until the latter part of October, which, according to advices from our national headquarters, will give ample time for parcels to reach their destination by December 25."

Complete details regarding the handling of the cartons are to be sent out within a few days from Lake Division headquarters to all chapters in Ohio, Indiana and Kentucky.

New Materials for Surgical Dressings.

The Surgical Dressings class has received materials for the next two months' quota—6 bales of cotton, 1200 yards of gauze, 16 pounds of cellulose cotton.

To make up these materials it will be necessary that surgical dressings women keep very busy and the few now engaged in this vitally important work are hoping that they will have reinforcements.

Every woman who can possibly do so is asked to lend a helping hand at the surgical dressings headquarters on Tuesday, Wednesday and Friday, or at least one of these days.

Don't Forget The Drive Begins Tomorrow.

Don't forget that the Red Cross drive for destitute Belgians and French begins tomorrow, October first, and lasts through October fifth.

Give this drive a big impetus by sending every garment or article you possibly can to the Red Cross headquarters, the corner of N. Main and W. Market, and stir up all your friends to rummage thoroughly for contributions.

QUARANTINE ON AT CAMP SHERMAN

(American Press)

Chillicothe, O., Sept. 30.—Camp Sherman is under quarantine. The rapid spread of bronchitis and coryza caused an order to be issued closing the camp to visitors. The camp surgeon announced that bacteriologists had not been able to find any influenza bacilli and that quarantine was purely precautionary.

A number of stringent regulations have been issued prohibiting assemblages of any kind except drill and instruction. The order closes all camp picture shows and theaters until further notice, closes Y. M. C. A. and Knights of Columbus huts at 6 p. m., causes cessation of dances within camp, prohibits visiting of men between barracks and prohibits all men in uniform, both officers and privates, from visiting any shows in Chillicothe. Every enlisted man and officer in camp must also gargle his throat with a preparation prepared by medical attaches. This must be done twice a day.

When it was shown there had been a steady increase in the number of cases a board of medical officers was appointed to recommend such measure, deemed necessary to prevent a possible epidemic.

HUN ANTI TANK GUN INFERIOR

(Associated Press Correspondence)

With the American Forces in France September 30.—A German anti-tank gun was captured recently by the Americans. The weapon had only been in use for a short time and the stock and rifle barrel had the appearance of just having come from the factory.

The gun fires but a single shot and

is of the ordinary Mauser model. When in action the gun is fired from a bipod mounting, one man doing the shooting. The gun weighs thirty seven pounds, has a length of five and a half feet and a calibre of 13.4 millimetres.

German prisoners say that the anti-tank gun is at its best at about 220 yards. American officers say that the German invention does not compare with the American anti-tank gun in any of its features—that the American gun can out shoot it.
